**These methods are so brainlessly simple - but incredibly effective!**

It's exhausting following systems that just plain don't work... **and never will...**

Very few affiliates understand just how easy it is to make *real* money. They mistakenly believe that it takes endless amounts of article marketing, hundreds of blog's - or a lot of experience with PPC.

**They are wrong.**

Remember - it's not about how "hard" you work. **It's about *what* you do.** That makes all the difference. And it's the difference between making chump change, or making a great living (passively) from the web.

We also expose the deadly myths that most affiliates *think* are common sense... when really it's these exact myths that are keeping them from seeing substantially better efforts for their time and effort.

# Home Based Businesses... **The REALITY!**

**I'm sure you'll agree with me here, we've all been there...** you come across a website where the guy or girl is showing off their affiliate account with \$1,000's pouring in each day.

They've got a great video showing you how easy it is for them to magically create a quick money making campaign by just "insert any business opportunity or internet marketing product you can think of here because, with very few exceptions, they're all basically the same".

**The #1 reason why 95%+ of people fail is simply because there's just too many steps needed to carry out.** Plus many of the steps are too complicated for the average computer

user/budding internet entrepreneur to finish successfully! For each step needed to follow, the greater the chance the average person quits!

The information given in these other programs and opportunities (regardless of how great it is) is usually **too overwhelming** for someone to absorb and actually apply. We buy that very informative e-book for \$99 or program from an Internet guru who is making millions (from selling thousands of these \$99 books) and we usually just let it sit on our computer somewhere and never use it.
